

Blue Dew

Glass Cleaner Concentrate

General Purpose

Description

Blue Dew is a concentrated glass and hard surface cleaner. This product will remove soils easily without spotting or streaking. Blue Dew can be used on all hard surfaces that are not harmed by water.

Directions for Use

Product should be diluted before use at a ratio of 20 parts fresh water to 1 part Blue Dew.

If equipped with a dispenser, insert feed line directly into shipping container. The dispensing equipment should be set up for proper dilution and maintained by qualified service technician for best results.

For manual dilution, pump 6-7 ounces of concentrate per gallon of water using supplied ounce-o-matic pump.

Spray diluted product directly onto surface to be cleaned. Spread at once in circular motion using a paper towel or soft cloth to remove soils. Repeat if necessary using a clean paper towel or soft cloth and spread the product until the surface is dry.

Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Safety Data Sheet (SDS). The label and SDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.
